

Superior speed, performance and reliability for your most demanding forms printing needs.

The MICROLINE (ML) 600 Series from OKI Printing Solutions: high-volume versatility in forms and correspondence.

Whether your output is continuous multi-part forms or fine business correspondence—or combinations of both—you'll find your solution in the Dual 9-pin ML620/621 or the 24-pin ML690/691 dot matrix printers.

They handle the printing needs of the most demanding environments—including point-of-sale, automation and utility applications such as wholesale or retail sales counters, financial departments, manufacturing and warehousing.

Yet they also produce letter-quality type and high-resolution graphics for the office and executive suite.

Unequaled performance – ML600 Series printers have features that give them a strong edge over the competition:

- Print speeds of up to 700 cps¹
- An MTBF rating of 25,000 hours
- Ribbon life of up to 13 million characters²

And they offer other features that will improve your working conditions, including:

- A convenient front paper path (tractor feed and friction feed)
- Printing on forms up to 7 parts³
- Versatile connectivity and paper handling

Fast, with finesse – ML600 Series printers run the gamut of paper types and envelopes at lightning speed. Their rugged printheads have a 400 million-character average life expectancy, with powerful samarium magnets and stored-energy pins that deliver precise, sharp characters through to the last page of a 7-part form³.

Sturdy and sophisticated – Field-proven reliability is just one reason OKI MICROLINE printers are the most widely-used impact printers in North America⁴. The rugged, reliable OKI ML600 Series printers are sure to win you over, too!

Step up to superior performance – OKI Printing Solutions provides products that increase our customers' performance without affecting their budget. That's because the tradition of the OKI® brand is one of proven reliability and value.

Should you need technical assistance, you can speak to a live expert located in North America—24/7/365—by calling toll-free: **800-OKI-DATA** (800-654-3282).⁵

You can expect more from MICROLINE 600 Series printers: faster speeds... better performance... greater reliability.
