

The ultra-high speed direct thermal point-of-service printer with the most comprehensive features in its class

OKIPOS® 407II: The fastest direct thermal POS printer on the market offers outstanding reliability, flexibility and functionality for high-volume applications.

OKI Printing Solutions offers a compact, reliable single-station POS printer that combines high performance with a low cost of operation.

Designed to meet the growing need for smaller, faster POS printers, the OKIPOS 407II printer has a print speed of 250mm per second¹—translating into 48 receipts per minute, at a crisp, clear 203 dpi resolution—for more transactions per hour in high-volume environments.

Built-in flexibility makes the OKIPOS 407II the ideal choice for a wide range of applications in retail point of sale, supermarkets, restaurants, hospitality, dry cleaners, health care, manufacturing, lottery, kiosks and banking.

Engineered to keep you up and running – The OKIPOS 407II has a streamlined, wall-mounted design that can free up valuable real estate at the sales counter. The printer has a long-life printhead and cutter for maximum uptime and fewer user interventions. An optional splash cover enhances dust and splash resistance in harsh environments. Its exceptional ease of use means the OKIPOS 407II can be up and running quickly with little need for staff training.

Your choice for versatility – The OKIPOS 407II prints on thermal paper and thermal labels, at widths up to 3.25" (82.5 mm) and thicknesses up to 0.15 mm. It holds a 3.9" (100 mm) roll of media.

In addition to superior media handling, the printer also offers a number of useful features— such as a “double resolution” mode to assure the best print quality of logos and graphics; 2-color capability; and 2-D barcode printing (PDF417 – QR code).

Standard configurations come with serial, parallel, USB or Ethernet ports. An optional ticket alarm is also available.

Industry-leading support – The OKIPOS 407II comes with a 2-year Advanced Overnight Exchange warranty.² Should you need technical assistance, you can speak to a live expert in North America 24/7/365 by calling, toll-free, **800-OKI-DATA** (800-654-3282).²

The OKIPOS 407II: Ultra-fast and highly reliable POS print performance backed by the support you expect from OKI Printing Solutions.

Highlights:

- Direct thermal POS printer
- Fastest print speed in its class: 250mm/sec – as fast as 48 receipts per minute¹
- Extremely high reliability: printhead rated at 60 million lines; cutter at 2 million cuts³
- Handles thermal paper and thermal labels
- 203 dpi resolution
- Windows® Vista®, XP and 2000 compatibility
- Models available with serial, parallel, USB or Ethernet connectivity
- 24/7/365 live technical assistance²

¹ Published performance results based on laboratory testing. Individual results may vary.

² Available in the U.S. and Canada only.

³ Depending on paper thickness.

OKIPOS® 407II

Specifications		
Technology	Print Method	Direct thermal
	Print Speed	Up to 250 mm/sec ¹ (48 RPM) ¹
	Printing Width	Max 3.15" (80 mm)
	Dot Density	203 dpi (8 dots/mm)
Interface	Standard	RS232 serial; IEEE 1284 bidirectional; USB; Ethernet
Compatibility	Operating Systems	Windows® Vista® (32 bit), XP (32 bit), 2000
	Emulation	Star Mode and ESC/POS
Font and Graphics	Character Matrix	9 x 24 dots, 12 x 24 dots
	Columns Capacity	48/64 or 53/71
	Character Set	95 Alphanumeric; International 32 (Star Mode)/37 (ESC/POS); 128 Graphic
	2D Bar Code	PDF417 – QR code
Paper Handling	Media Width	57.5mm (+/- 0.5), 79.5mm (+/- 0.5), 82.5mm (+/- 0.5)
	Media Roll Diameter	Max 3.9" (100 mm)
	Media Thickness	0.065mm – 0.150mm
	Cutter	Auto-cutter (standard, full or partial)
	Paper Loading	Drop-in
	Paper Sensor	Paper end (near-end sensor standard)
Environmental	Size (WxDxH)	5.78" x 8.38" x 5.79" (147 mm x 213 mm x 148 mm)
	Weight	3.85 lb. (1.75 kg)
	Electrical	DC 24 V +/-10%
	Operating Temperature	5° C – 45° C (10% 90% relative humidity)
	Storage	-20° C – 60° C (10% 90% relative humidity)
Reliability	Printhead	60 million lines (if paper thickness is between 60µm – 75µm)
	Cutter	2 million cuttings (if paper thickness is between 65µm – 100µm)
Warranty	Printer	2-Year Advanced Overnight Exchange ³
Options	Accessories	External buzzer (ticket alarm)
